How to clean you Gorilla Click & Fix Foam Gun

(When swapping empty cans to prevent blockages)

WHAT YOU NEED

- 1x Gorilla Expanding Foam Cleaner
- 1x Used Gorilla Click & Fix Foam Gun

WHEN SWAPPING EMPTY CANS, TURN FLOW ADJUSTMENT KNOB OFF

STEP 1

Keeping bayonet opening away from you, unclick the can of Gorilla Expanding Foam. Spray wash the bayonet head to remove any excess foam. Click and turn to fully engage the Gorilla Expanding Foam Cleaner can on to the gun.

STEP 2

Pull gun trigger until all foam is expelled, repeat process. Ensure foam waste/ cleaner is disposed of appropriately. Keeping bayonet opening away from you remove the Gorilla Expanding Foam Cleaner can.

Click and turn to fully engage the New Gorilla Expanding Foam can on to the Gorilla Click & Fix adaptor.

STEP 3

Release the flow adjustment knob lightly and dispense foam immediately to fill the entire gun with foam.

Tighten the flow adjustment knob to fully closed until ready to use again.

Store Gorilla Expanding Foam in a vertical position (gun upwards - out of direct sunlight). Ensure to shake can well before next use.
